- WordPress
- SEO

LANGUAGES

- Polish
- English
- Suahili

PROFILE

A few months ago I made up my mind to pursue my career as programmist. Initially I've started with C++, however I've quite quickly discovered that I find front end languages more appealing. At the moment I spend my time learning HTML5, CSS3/SASS, JS, jQuery and Bootramp while using graphic tools like GIMP and InkScape as well. I consider myself to be an open-minded optimist trying to focus solely on a bright side of life.
